Work History

**2023-12 -
2024-04**

Salesforce Developer

Internship At Premium Learning System Pvt.Ltd. Pune

- 4 months of hands-on experience in Salesforce development during internship
- Quick learner with ability to adapt to new technologies.
- Developed Custom Objects, Custom Fields, Record Types, and Field Dependencies.
- Implemented Validation Rules and Workflow Rules.
- Proficient in Apex programming, including classes, triggers, batch apex, and scheduling apex.
- Skilled in querying records using SOQL and utilizing Custom Settings and Custom Metadata
- Experienced in Lightning Web Components (LWC) and Lightning Web Runtime (LWR)

**2020- 2021-
09**

Sports Analyst

Hudl India Pvt.Ltd., Pune

- Games played worldwide were recorded or broadcasted by individual coaches, then transferred for testing and analysis. We tracked every player's move and prepared detailed performance cases. These stats were then sent back to the respective team coaches.

Education

Bachelor of Engineering: Electronics and Telecommunication

Modern Education Society College of Engineering - Pune

Project Details

- ChatGPT
- Hotel Reservation
- Wellness Calculator
- Smart Clock
- Weather API
- Project Management

➤ ChatGPT

Roles and Responsibilities:

- Integrated ChatGPT into Salesforce LWC for real-time chat.
- Designed and implemented UI/UX using CSS and SLDS.
- Ensured security with Named Credentials and custom settings.
- Developed efficient data handling with Apex classes for API integration.

➤ Hotel Reservation Management

Roles and Responsibilities:

- Developed a custom Hotel Reservation Management App on Salesforce, focusing on schema design and data modeling.
- Enhanced business processes with Salesforce automation flows.
- Integrated Lightning Web Components (LWC) with advanced features for improved user experience.
- Utilized Salesforce UI elements for intuitive navigation.
- Implemented robust Apex classes and triggers for dynamic data handling.
- Applied best coding practices, ensuring responsive UI updates.
- Finalized the project with Lightning App Builder, deploying LWC components for comprehensive functionality.

➤ Wellness Calculator

Roles and Responsibilities:

- Developed a Wellness Calculator using Salesforce LWC and LWR, offering real-time BMI calculation with a responsive UI.
- Utilized modern web technologies to optimize performance without data tables. Managed project setup and execution efficiently with Node.js, Visual Studio Code, and Salesforce DX.
